Recommended daily output
80 cups

Smoother than ever

10.1" touch screen

Larger screen
Excellent interaction

UX
DESIGN
AWARDS

Easier clean than ever

Self-clean System

Ensured food hygiene

BTC-95

A new upgrade
for classic excellence

- ✓ **Upgraded touch screen: 7" → 10.1"**
- ✓ Smoother user interface: awarded UI design
- ✓ Larger brewer capacity: 14g → 16g
- ✓ Easier maintenance: manual → automatic milk system cleaning

Refreshed user experience

10.1" color touch screen

- ✓ Refreshed UI 2.0 design for quicker and more satisfying interaction
- ✓ Create and display branded media for advertising or promotions

One touch for multiple beverages

Top-grade in-cup quality

Excellent and consistent extraction

- ✓ Uniform grinding for perfect consistency
- ✓ Max. 16g brew capacity for larger cups
- ✓ Stable and efficient brewing cup after cup

Rich and pure flavor every time

Hassle-free maintenance

Easy-clean milk system

- ✓ Self-cleaning milk system to save time and effort, ensuring optimal food hygiene
- ✓ Removable frother for quick cleaning

360° comprehensive cleaning

Coffee Cloud Smart IoT solutions

Remote Online Fleet Management

- ✓ Comprehensive data analysis and insights
- ✓ Real-time monitor device status, beverage recipes, maintenance alerts, and more operations
- ✓ General Data Protection Regulation (GDPR) certificated

Significantly reduce labor costs

MAXIBEV

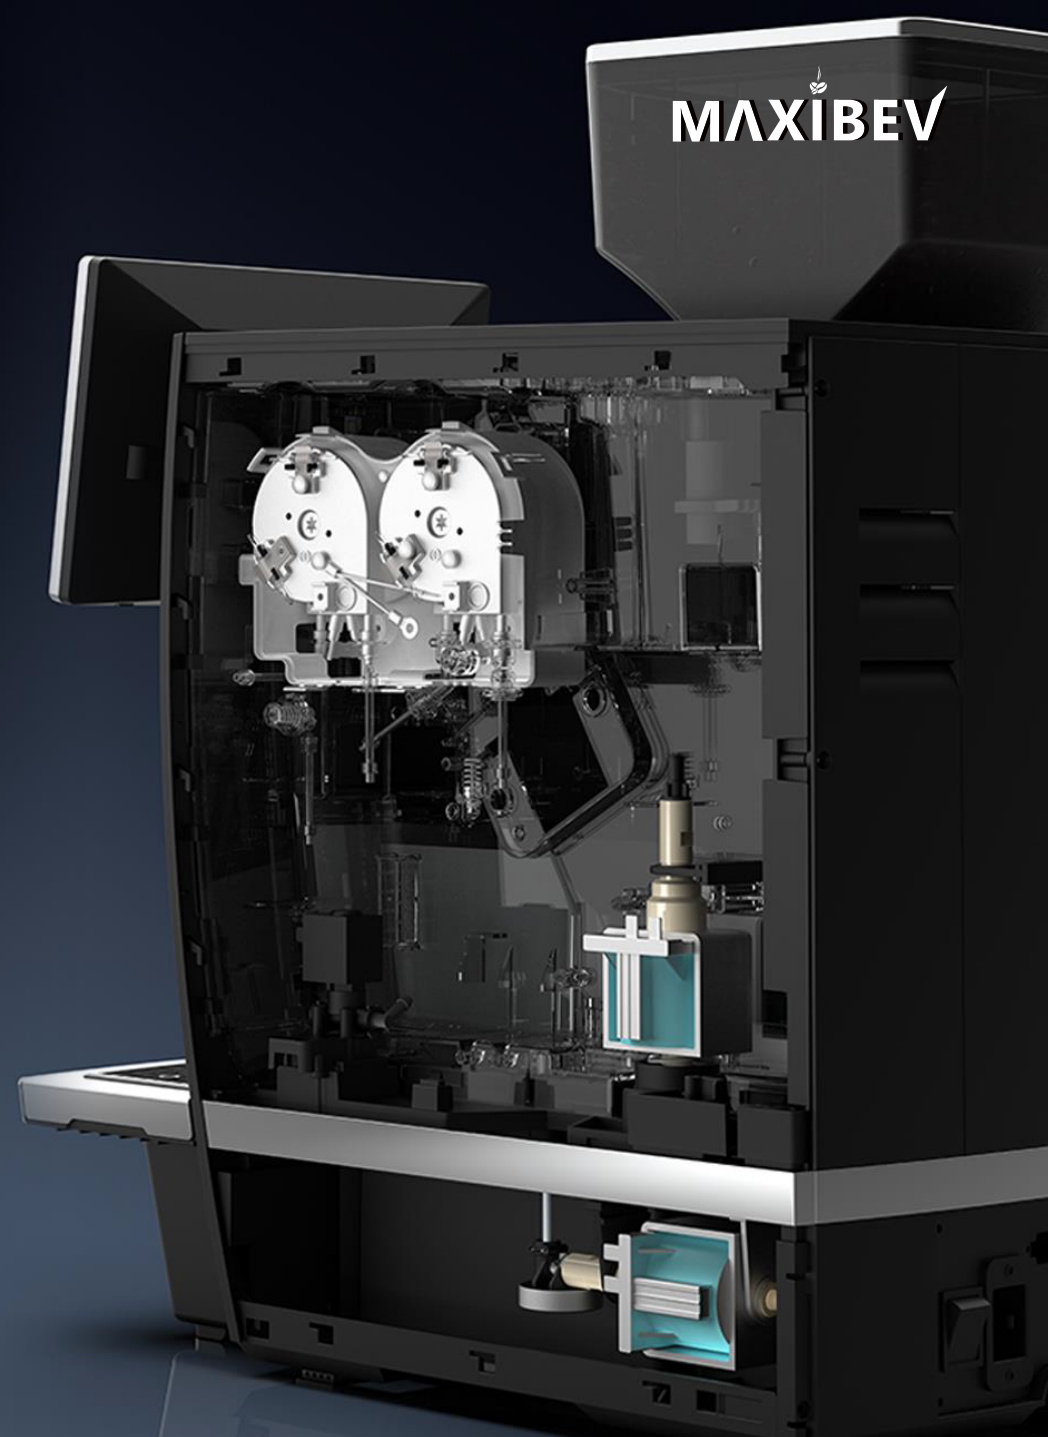

Higher efficiency for fast serving

Simultaneously dispenses milk and coffee

- ✓ Dual thermoblocks and dual water pumps to ensure high-efficiency heating
- ✓ One touch to enjoy Cappuccino or Latte

Less waiting time for consumers
